My Bill

Senate Bill 23-186 Oil And Gas Commission Study Methane Seepage Raton Basin

This bill requires the Colorado Oil and Gas Conservation Commission, in deliberation with local governments, to do the following: present a study that recognizes management practices for methane seepage in the Raton Basin, affirm the high quality of water from the methane capture operations, and uphold the potential to preserve and use the water for beneficial uses.

Ag Day and Week

As a part of National Agriculture Week, today is National Agriculture Day! This week (and especially today) celebrates the agricultural industry and the role agriculture plays in the nation and our economy.

Many people that are involved in agriculture have a hard time with urban legislators weighing in on how rural people conduct their business. I encourage you, as a legislator who not only supports agriculture but is involved in it, to reach out to the urban legislators to offer insight into our rural lifestyle and practices.
